Sir:

In accordance with MPEP 609 and 37 C.F.R. §§ 1.56, 1.97 and 1.98, Applicants bring the listed references on the attached PTO-1449 form to the Examiner's attention and request that they be considered and made of record in this application. Also attached are copies of the non-US patents. *No fee is believed to be due for this Information Disclosure Statement.* However, if a first Office Action on the merits was mailed before the filing date of this Information Disclosure Statement, the Commissioner is authorized to charge the fee set forth in 37 CFR § 1.17(p) to Deposit Account No. 50-1836. A duplicate copy of this Statement is enclosed for that purpose.

Since this application was filed after June 30, 2003, the U.S. Patent and Trademark Office waives the requirement under 37 C.F.R. 1.98 (a) (2) (i) for submitting a copy of each cited U.S. Patent and each U.S. patent application publication.

French Patent Publication No. 2 442 175 discloses a fixing device comprised of two separate parts adapted to be applied one on the other and cooperate together. One part is integral with the pedal while the other part is integral with the shoe and positioned under the shoe. These two parts comprise associated hooking claws and flanges (15, 16, 17; 5, 8, 9), forming a triangular hooking system. An English abstract of the French patent publication is attached for the Examiner's convenience.
